Nevada City Nugget

VOLUME III, NUMBER 17 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER MARCH 11, 1929

GASTON MILL TO START SHORTLY ON GOOD ROCK

Developement of the Gaston Gold Mine by the Rescue-Eula Mining Co. is progressing favorably. Stoping of ore, by the shrinkage system, is now in progress, preparatory to starting the 70 ton mill about the first of May. General Manager Schiffner has secured the services of James Thompson, formerly foreman of the Plymouth Consolidated mill at Plymouth, Calif., to take charge of the Gaston mill.

The rhabilitation and development of the property has been under way for the past 8 months and with the starting of the mill it is hoped that operation will be on a paying basis.

Several hundred feet of drifting and cutting has been accomplished in the past two months, nothwithstanding the unfavorable weather conditions, the results of which are very encouraging.

The north drift of the drain tunnel level, on the contact vein, has been in quartz for the last 40 feet, and there is every likelyhood that the downward extension of the big north oreshoot, so profitably mined in the upper levels of the mine will b encountered at no distant date.

Sufficient water is now available for operating both the mine and mill and it is hoped that electric power will soon be available for continuous all year round operations

A Waugh No. 8 drill sharpener has recently been added to the equipment and five new 1¼ ton cars are being built by one of the local machine shops which will add to the economic and efficient operation of the property.

The road from Nevada City to the mine, by way of Washington is now open, and the last traces of snow around the property are rapidly disappearing, the camp once more presenting a very inviting aspect.

JUSTICE PEACE WILL BE APPOINTED MONDAY

Next Monday the county board of supervisors will meet in special session to appoint a new justice of the peace for Nevada Township to succeed H. B. Dow, resigned. A number of candidates are already in the race. Edw. W. Schmidt, Capt. J. E. Nihell, G. W. Gildersleeve and C. H. Ninnis look to be in the lead so far in the street talk.

W. L. Mobley has been prominently mentioned but has made no campaign and stated he was not out after the job. Major F. H. Chapman has also been recommended. It will be a merry race.

O'NEILL RESIGNS

Joseph H. O'Neill, Senior, who has been connected with the educational system of this county for many years past, first as a teacher and later as a member of the county board of education, has resigned from the board owing to his advanced years and it will be necessary for the board of supervisors to fill the vacancy. Chairman Eddy stated that no immediate action is contemplated in the matter. It is presumed that the new appointee will be from Nevada City.

GOYNES BUY PROPERTY

Mr. and Mrs. Richard R. Goyne have purchased the former Weisenburger residence property, on Nevada street where they have been making their home and expect to rebuild it into a modern home throughout the coming year.

Jack Snell has returned from a trip to the lower country.

George W. Perkins, a former resident of Grass Valley and connected with the Wells Fargo Express Company for a number of years, passed away at his home in San Francisco last week. Knight Templar rites were used at the funeral which was conducted from the Masonic Temple. He was well known in Nevada City where he had visited the last summer. Royal Arch Masons will well remember him for his many years service as Grand Sentinel of the Grand Chapter.

MACK RUNNING DRIFT ON HALKYARD PROPERTY

B. F. Mack, who holds a lease and bond on the Halkyard placer property six miles above Camptonville, is running a drift to tap the old Halkyard shaft operated by St. Clair and Halkyard about 40 years ago and through which much pay dirt was taken out. Six men are employed and the drift is now in 800 feet with but a short distance to go to reach its objective .The property consists of 280 acres and is in Sierra county.

WESTERN MERGER SHIPS CONCENTRATES SMELTER

A shipment of 24 tons of concentrates was made to Selby last week from the Western Merger mine, which are running around $200 per ton. The concentrates are the result of several month's milling. The plates catch about 80 per cent of the values in free gold.

The crosscut to reach the Jackson vein is expected to cut into ore any time as there are plenty of indications of approaching ledge matter in the face. The west drift on the Randolph vein shows two feet of milling ore on the 400 level. The mill is being run one shift on ore coming from the 400 level and is producing practically the cost of operating the property.

President A. A. Codd was here from Reno the past week on company business and reported himself as well pleased with the showing that has been made so far. He made seven locations of quartz claims while here which have been placed on receord.

BLACK BEAR PROPERTY IS OPTIONED BY BUTLER

The Black Bear quartz property north of Rough and Ready has been taken under bond by Cooley Butler from the estate of William Buchholz the past week. $1000 was paid on the purchase price and the balance of $74,000 is to be paid at the expiration of the five year agreement.

The bondee agrees to perform at least 75 shifts of work each month on the property. L. S. Wincapaw is the local representative for Mr. Butler who has been acquiring extensive holdings in this district the past year.

ELKS LODGE ELECTS OFFICERS

Friday night Nevada City Lodge of Elks elected the following officers for the ensuing term: Richard Goyne, Exalted Ruler; H. A. Curnow, Esteemed Leading Knight; John J. Fortier, Esteemed Loyal Knight; V. V. Foley, Esteemed Lecturing Knight; A. M. Holmes, Secretary; G. J. Rector, Treasurer; James B. Young, Tyler; S. Lee Leiter, trustee; Thomas W. Richards, delegate to Grand Lodge and Geo. H. Calanan alternate delegate to grand lodge.

The officers will be installed Friday, April 12.

Grand Lodge will be held in Los Angeles this year.

FIRE DEPARTMENT WILL BANQUET ON APRIL 10

Manager Fred C. Worth of the National Hotel will tender a fine banquet to the entire membership of the Nevada City Fire Department on April 3d in recognition of the splendid efforts put forth in combatting the flames whicr recently threatened to destroy the strucure.

Pennsylvania Engine Company, No. 2, enjoyed a turkey banquet prior to its regular meeting last Wednesday night. Several invited guests also partook of the feast.

Lewis W. Boswell, who came across the plains in 1853 and was a resident of this section for a number of years, passed away at Oroville last week.

Dr. Tully Knowles of San Jose will be the speaker on the program of April 24th in celebrating "Public Schools Week" in Nevada City.

Niles P. Searls of Oakland visited at the home of his parents, Mr. and Mrs. Fred Searls, Friday.

SPECIAL MINING ISSUE IS PROPOSED TO PROMOTE REVIVAL THIS DISTRICT

The Nugget proposes to issue during the early part of April a special number devoted to the mineral resources of Nevada and Sierra counties There has been an insistent demand for some such literature in convenient and concise form and this paper is more than pleased to undertake the task.

The announcement of the forthcoming issue was first made from Sacramento some time since and the United Press, one of the world's great news distributing organizations, put the notice on its leased wire service and newspapers all over the United States have been chronicling the fact with the result that inquiries are coming in in increasing numbers from widely scattered points, asking for copies at this early date.

The matter of the issuance of such a number has been held in abeyance for some months until we could find some person to handle the outside work in a capable manner. Following the successful exploiting of the Dog Derby publicity at Truckee, Mr. Waynflete was engaged and he has found a warm response in Sacramento and San Francisco. If the business interests of this county will accord the idea a generous welcome it will be possible to get out a publication that will reflect credit on the marvelous mineral resources of his county and will bring much new capital into the district and develop it.

The following letter from Walter W. Bradley of San Francisco, State Mineralogist of California, is self explanatory:

Dear Mr. Willoughby:

Your letter of the 4th inst., has been received advising of your plans for a special edition of The Nugget about April 1st., to cover the mining development and operations in the northeasterly section of the state, particularly the counties of Nevada and Sierra, and ohers nearby. Your enterprise is highly commendable. Your section ranks with the Mother Lode District as one of the important, if not the most important, gold oreas of the United States.

Such an edition as that which you propose, will call the attention of those interested in mining and advertise to the world that California and your section in particular still have latent possibilities for the development of wealth from our mineral resources. Your paper should have widespread distribution and the dissemination of such information will bring capital to your district.

I shall be pleased to send you a brief story for the special issue which I will forward in a few days."

The following letter from New York City is of interest:

"I would like two dozen copies of your special edition soon to be published. Please let me know the amount of cash to send for the same. You surely are doing good work for California and the entire world. I wish you success in every way.

Yours cordially,
C. W. Gammon.

Mr. Gammon's letter is all the more interesting as he must have received his information from some of the laudatory press notices already accorded this paper.

Letters have also been received from points as far distant as Tacoma, Washington, and San Diego, which shows that the outside world is following closely the trend of our mining revival. The special issue will contain a wealth of informaton on mining conditions in this section that has taken a great deal of time and trouble to procure. Owners of properties are co-operating whole heartedly with the idea and the issue should create a great deal of interest.

Only a nominal charge for the copies will be made and orders should be placed as early as possible so that this office may forecast the size of the edition needed to supply the demand. The initial edition will run into the thousands and will be distributed far and wide. It will be printed on fine book paper throughout and of a size convenient for mailing. No expense will be spared to make it attractive.

The State Department of Natural Resources has expressed its strong approval of the idea as has the Mining Department of the Sacramento Chamber of Commerce which first gave out the story that such an issue was contemplated. These two organizations carry a great deal of weight with the mining fraternity and their cooperation with articles has already been carried out.

Order a copy or more at once to be sent outside to carry the story of Nevada county's mineral greatness.

DOW SUCCEEDS TO BUILDING AND LOAN

Horace B. Dow, who has been conducting a real estate and insurance business on Commercial street since the death of E. F. Hook and filling the office of justice of peace by appointment, has resigned the latter post to take up the work of secretary of the Nevada County Building and Loan Association which has hitherto been filled by W. A. Doctor.

Mr. Dow has made an enviable record in his business life here by his dealing and he will carry into his new work with which he has been closely associated as a director of the Association since its inception, the best wishes of a large circle of friends.

The Association has made an excellent showing under the management of Mr. Doctor for so young an organization and it is to be expected that the new secretary will carry forward this movement in an effective manner in this community. Mr. Dow will also have charge of the Grass Valley office.

L. W. Boardman a former resident and a disciple of the old school of printing, is now located in Fairoaks, where he and his wife conduct a newspaper and magazine agency.

John Sawbridge of Yakima, Washington, is at the Mohawk-Yakima mining property in the Gold Flat section. He is president of the company.

Easter rabbits, baskets, candies and novelties at Colleys. 17-18ch

MRS. W. E. MOULTON IS SHOT BY STRAY BULLET

While waiting on a customer in the Moulton store at French Corral Saturday morning, Mrs. W. E. Moulton was struck by a bullet from a revolver which dropped to the floor from the pocket of Tom Myer and was discharged. The bullet penetrated Mrs. Moulton's limb about ten inches above the knee and finally lodged at the tip of the spine.

Mrs. Moulton was rushed to the Nevada City Sanitarium where Dr. R. F. Werner located the bullet and took precautions to prevent any infection setting in. She is resting easily and it is hoped that no serious results will follow.

ST. CANICE'S CHURCH TO HONOR ST. PATRICK

The members of St. Canice's Catholic church are preparing to celebrate St. Patrick's Day by giving a ball in Armory Hall next Saturday night to which the public is cordially invited. An entertaining program will also be given.

Excellent music will be provided.

A. H. Mooser has been elected again to the presidency of the Nevada County Golf Association, R. J. Bennetts reelected as vice president and Lynne Kelly as secretary, in the directors' meeting held last week.

It was some storm that hit this community Saturday.

Chocolate decorated Easter eggs ta Colleys. 17-18ch

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining claims have been filed for record the past week:

The Wildwood by Henry Wilson and C. C. Bennett in Round Mountain Mining District.

The Hidden Nugget placer by Grace Sweeney, Bart Sweeney, Vera Foote, W. J. Foote, Archie H. Miller and Ira C. Lynch in Relief Hill Mining District.

OPERATIONS COMMENCING GOLD RUN PROPERTIES

Preparations are already under way for starting drift placer operations this spring at the properties of the Stewart Gravel Mines, Incorporated, at Gold Run, according to James D. Stewart of Auburn who was in town Saturday for a few hours.

A crew of men has been put at work repairing the buildings, roads and the adit of the tunnel so the surveyors can get in and lay out works. This is one of the large gravel properties of the upper country and carries excellent values.

HELLAPOPPING DOWN PLACER COUNTY WAY

Ever since the Placer county board of supervisors got tangled up in the matter of what the various county officials ought to receive in the way of salary, things have been brewing and now the Auburn Post of the American Legion has constituted itself a grand jury body and has been bringing a lot of things to light which do not look well in print and might point out to grand juries generally that the old routine system of inspection may be a little loose. The Legioners dug up a lot of things, turned their finding over to Judge Landis, issued them to the press and now the regular grand jury is having an opportunity to look it over.

One of the supervisors is charged with collecting bills for work done by his stage line. One tire company with its alleged agent a county employee is said to be favored with the big end of the tire business. Another supervisor is charged with collecting the road claims for his men under a blanket warrant of some sort. It is claimed that large purchases in excess of the amount allowed by law without calling for bids have been made. Figures show that the county garage cost the taxpayers almost $50,000 last year. one half the amount expended on all the roads of the county.

The Legion has done a great deal of good for the taxpayers that no grand jury has apparently done down there so far.

JOHN LOPEZ FATALLY HURT IN ACCIDENT

John Lopez, well known local business man, was fatally injured Wednesday afternoon when his truck went off the Milliken grade several miles east of Nevada City as he was returning from taking a laod of hay to Washington. The steering knuckle on his truck broke which was the cause of the accident and threw the machine out of control on a steep hillside.

The wounded man was quickly brought to Nevada City by a passing motorist and Drs. Werner and Tickell applied first aid at the Nevada City Sanitarium. He passed away a few hours later from the injuries which consisted of a fractured skull and face bones.

He was very popular among a large number of friends who will regret his untimely passing.

The interment of the late John Lopez was in the Catholic cemetery on Broad St.

There being no golf tournament yesterday, the members of the club put in their time tackling a climb on the club ladder trying to displace some of the leaders.

Mr. and Mrs. Earl Beatty of Sanger, Fresno county, visited here with her mother, Mrs. George Downey, for a few days during last week.

MILL BOUGHT BY THE NEOCENE TO HANDLE GRAVEL

A new mill for the handling of cemented gravel was purchased in San Francisco Wednesday by General Charles Manker for use at the properties of the Neocene Gold Incorporated, north of town. Excavating of the mill site was commenced today and it is expected that the mill will arrive in the next two wek and will be set up at once and put to work. The mill has a capacity of 50 to 75 tons per day.

Stoping of gravel is now in progress on five faces and around 35 cars a day are being run through the sluices. A large quantity is also being piled on the dump ready for the mill. At the end of the west crosscut a hole was drilled down to bedrock Saturday and was found six feet below the floor of the crosscut, giving a thickness at that point of 10 to 12 feet of the pay gravel. The main crosscut is now 125 feet into the blue gravel which is showing remarkable values.

A qualitative analysis made in San Francisco on a test run of gravel showed excellent values and indicates that the company has located real pay gravel and with its large holdings already under purchase and under bond will give it a considerable acreage to handle. Two more large tracts were added the past week.

Mine Engineer Edward Nolan was called to Los Angeles the past few days to settle up an estate and he will be absent for several weeks.

LAKE VERA ROAD WILL BE COUNTY IMPROVED

By action of the Board of Supervisors, the road between Nevada City and Lake Vera will have $1000 apportioned to its improvement this spring and in addition Supervisor R. A. Eddy will use $500 from his road fund which should go a long ways toward putting this piece of highway into fine shape for the expected heavy summer travel. Mr. Eddy has been doing work lately as far as the Mooney place to assist the mining operations at the Neocene property. When the delegation from the Chamber of Commerce appeared before the Board last week they were given a generous welcome and the funds were alloted.

SEAWELL HAS BILLS PASSED BY ASSEMBLY

Assemblyman Jerrold L. Seawell from this district has had two of his bills which were introduced in the Assembly passed from that body and they have gone to the Senate for approval. The bill setting salaries for an assistant to County Treasurer Frank Steel at an annual stipend of $1320, clerk for District Attorney W. E. Wright at a rate of $600 an increase in Court Reporter M. D. Coughlin's salary from $1000 to $1500 and doubling Judge C. A. Ocker's salary at Truckee from $600 to $1200, passed without trouble. The Seawell turkey branding bill was also passed easily.

Our assemblyman has been making a fine showing in the legislative body and many complimentary remarks have been heard from seasoned legislators, who have none but words of praise for the effective way he has been representing his constituents. His bill to assist placer mining is now in the ways and means committee of the assembly, having passed the mines and mining committee.

C. R. Clinch has been named as Exalted Ruler of Grass Valley Elks Lodge for the coming year. He is one of the popular business men of our neighboring city.

The Chamber of Commerce will meet in regular session Tuesday evening.

Mr. and Mrs. H. H. Buckner have had as guests their daughter, Mrs. H. G. Lyons, and daughter of San Diego.

Freshman Reporter Marjorie Odgers

EDITORIAL

The first annual Flag Contest of the United States Flag Association is to be held this spring. This contest is open to all boys and girls who have not yet graduated from high school and are between fourteen and eighteen years of age. The Hearst news papers are sponsoring this contest and are offering very attractive awards. The awards are to be divided into three classes—local, regional, and national. The award for the winners of the local contest, a boy and a girl, will each receive a medal and will represent our school at the regional contest. The winners of that contest will be given a free trip to Washington, a scholarship, and will take part in the national contest. The winners of the final contest will be given a trip around the world. Such awards are certainly worth striving for.

The contest will consist of three parts: the answering of seventy-five questions on the Flag, the writing of a composition on the subject, "Old Glory's Greatest Glory", and the presentation of this composition orally. The questions can be found in the San Francisco Examiner.

We hope that the students of the high school will show more interest in this contest than they have so far. It is necessary to have twenty-five participants registered by March 14, and at present only sixteen have signed up. Come on, kids, show some ambition!

HONOR SOCIETY NEWS

The Scholarship Society had a dinner at six o'clock last Monday evening at the National Hotel. Seven students attended, with Miss Taylor, the chapter's society adviser, as chaperon. After the dinner the party went to the theater to see "Wings". The members enjoyed their party very much and are hoping to have similar parties in the future.

The Honor Society is making plans for student coaching work. The members of the society will coach the students who wish help in the subjects in which they are failing. Each member, who is especially proficient in a subject will coach someone who is failing in it. Although this plan has never been tried in Nevada City it has been a great success in other schools helping both the members of the Honor Society and the students whom they are assisting.

The Society is also planning to establish a fund for students who wish to go on to college, but are hampered by insufficient funds. The financial aid will probably be in the form of a loan to be paid back when the recipient is able. However, the plans are not definitely decided upon. The Honor Society is planning to earn money for this fund, but the way in which they will do it has not yet been determined.

On Friday, March 15, the Honor Society is planning to give a St. Patrick's Day program. The main features of the program will be a one act comedy, "Spreading the News", by Lady Gregory. In addition to this there will be several short numbers, probably musical.

CONTESTS

Miss Taylor and six of her pupils will go to Marysville Saturday, April 13, to take part in the typing and short hand contests which will be held there.

Last year there were five representatives from our school, while this year there are to be six.

Vera Toccalini and Kathlyn Greenway will take part in the shorthand contest. Alberta Baker, Helen Chapman, Grace Towle and Geraldine Larsen will enter in the typing I contest and Vera Toccalini the typing II contest.

Mr. and Mrs. R. A. Barnes have bought the old Hook property on Washington street and will make their future home here. The house is in good shape, but they plan to make a number of changes.

Grass Valley is running limited parking on the business streets.

SPANISH CLUB

Miss Whelan has organized the Spanish II class into a Spanish club which consists of thirty-five members. During the meetings which will be held during school hours, only the Spanish language will be spoken. The club will also hold several social meetings in the evenings. At their last meeting the following officers were elected: Addison Janes, president; Deynes Foley, secretary, and Cecelia Genasci, treasurer. The students get a "big kick" out of talking in Spanish, and it also teaches them to converse in Spanish more freely. A greater interest has developed in the Spanish class since the organization of the club.

BABY PICTURES FOR QUILL

The editor of the "Quill' is working desperately to secure baby pictures of the members of the senior class and faculty. So far she has been able to obtain pictures of only the girl members of the class. We wonder if the boys and the faculty members were ever babies?

The costumes of the senior babies consist of many types, but all of them carry our thoughts to babyhood days. The faces of these baby pictures resemble the present owners to a very marked degree.

Nearly all the babies have a serious look on their faces which shows how children change as they grow older. Miriam Sawyer, however, is smiling. It has not been learned yet why she is smiling, but it may be because the little bird in the camera flew away.

OLD FASHIONED SPELLING

Tuesday, Miss Hoffman held an old fashioned spelling contest in her English classes. The students were lined up along the wall, and the words were dictated by Miss Hoffman. Each one who misspelled the word given him took his seat. As all the classes were spelled down quickly they had time for two contests each. In the morning class of sophomores, Elizabeth Thomas won contest one and Billy Jeffrey contest two; in the afternoon class, Ruth Noyes won contest one and Lionel Davies contest two. In the first junior section Kathlyn Greenaway won contest one and Thelma Boreham contest two; in the second junior section Grace Towle won both contests. In the senior class, Nancy Jones won contest one and Alberta Baker contest two. The words were very catchy, and everyone enjoyed testing his spelling ability.

STAFF SELECTED

The following people have been selected as members of the newspaper staff for the next two weeks: editor, Thelma Boreham; senior reporter, Mary Jones; junior reporter, Lena Chidotti; sophomore reporter, Billy Jeffrey; freshman reporter, John Doctor.

RADIO PROGRAM

On Monday morning, March 4, we had a radio at school so that the entire student body might listen to President Hoover take his oath of office and make his inaugural speech. The program came over very clearly and was much enjoyed. The speeches and other events were discussed in many of the classes. The history and sociology classes were required to take notes. We are very grateful to Mr. Elkus for installing the radio for us.

SOPHOMORE PARTY HELD

The sophomore party was held Friday night, March 8. The admission was twenty-five cents each. The decorations were in St. Patrick's color with green shamrocks. The sophomores served pineapple ice and cookies cut like shamrocks. The sophomores are quite proud of their party and certainly cannot be blamed for this feeling.

Mrs. Herbert Paine has accepted a position with Dr. R. F. Werner as office assistant. She has been in charge of the dining room of the Nationl Coffee Shop and made a large circle of friends.

Joseph and Alfred Nevis and sister, Lillian, were week end visitors in Nevada City.

VISITING TEACHER

Miss Whelan visited the language department of the Auburn high school Wednesday, March 6. She reported that Auburn has a wonderful high school and that it is beautifully built. She visited the French and Spanish classes taught by Mr. Gregory and also the Latin class taught by Miss Eston. By visiting other schools the teachers gain a greater knowledge of the methods of other teachers.

JOKES

"Bill went to Washington expecting that his senator would get him an easy berth."

"And did he?"

"Not exactly, but he gave him a wide one."

"Teacher: "What do they call the instrument the French use for beheading people?"

Bob: "The Gillette, I think".

WANTED: A pair of suspenders, by Genevieve, for use during fourth period physical education classes.

The many friends of Miss Pearl Botting were surprised to learn of her wedding which occured November 27, 1928. It had been kept ber 27th, 1928, to Mr. Spenetti of San Francisco. She is a daughter of Mr. and Mrs. T. C. Botting of Nevada City.

Mrs. Jack Rafter of Sacramento and daughter, Mrs. May Ungerland, of Monterey visited relatives here Sunday.

TRACK NEWS

Nothing very definite has been done in track and field activities as yet, although several students have signed up for the various events. We have bought some new equipment tnd more is being ordered.

Our first contest will be at Grass Valley this Saturday. We expect a better contest than that of last year.

MISS O'NEIL VISITS

Miss Agnes O'Neil of San Jose, music teacher in the grammar school and high school last year, visited in Nevada City at the home of Mrs. R. J. Tremaine this last week end. This is the first time Miss O'Neil has returned and she was welcomed by her many friends.

Mrs. Theodore Rundy is recovering from an operation at the University hospital at Berkeley and will soon be able to return to her home in Nevada City.

JIM STEWART WRITES OF EARLY PLACER MINING DAYS

(By James D. Stewart)
Continued from last week

On November 28, 1891 a group of men from mining districts of Placer county met in Auburn to band themselves together into an association to secure legislation to revive hydraulic mining. Thomas B. Everett, a one time assemblyman from this district, was largely instrumental in bringing about the meeting. J. H. Neff took the lead and the Auburn Convention became the Placer County Minrs' Association. A call was sent out for a state convention and thirty-fiv counties had delegates at the first state convention that met in San Francisco, January 20, 1892.

An executive committee began the drafting of a bill along the lines of what later became the Caminetti Act. A finance committee gathered the sinews of war. The Placer county supervisors appropriated $1,000. Nevada supervisors did likewise. The San Frnacisco Board of Trade gave $1,000., Niles Searles, J. B. Hobson, J. K. Luttrell and Robert McMurry were sent to Washington to aid Congressman Caminetti. However, the bill did not get by that session. The second convention met in San Francisco, November 15, 1892. The reports show that $14,322.00 had been collected, of which San Francisco contributed $7,405.00, and $10,631.00 of this sum had been spent for the expenses of the delegation to Washington.

In March 1893, Congressman Anthony Caminetti won his long fight and the act for the aid of the hydraulic miner became a law. Appropriations were secured from the Federal and California state governments of $250,000. and $150,000. each. This $800,00. was used to control the debris already in the streams.

The Miners' Association held conventions for several years, but gradually drifted away from the hydraulic mining issue. The hydraulic miners were outnumbered by the machinery salesman, promoters, etc., who went as delegates tnd so one by one dropped. In a short time the organization died.

The Caminetti Act provided that a commission of three engineers from the Engineering corps of the United States army to be appointed by the president should constitute the California Debris Commission and have power to regulate hydraulic mining on the Sacramento and San Joaquin rivers. This commission had the power to issue permits to mine by the hydraulic process and prescribe what kind of barriers should be built to restrain the debris.

This commission was also charged with the clearing of the navigable waters and the appropriations were expended under their direction.

The first members of the California Debris Commission were enthusiastically in love with their work and were helpful in many ways to the miner. This attitude has changed as the years went by and they became engrossed in the river improvement until instead of being helpful to the hydraulic miner they have become a national police to see that he does not violate the law.

This commission, thirty-six years old next month, has never made any attempt to carry out the salient provisions of the Act, which are:

The siezing of dam sites located on public lands upon which to build dams to restrain the debris from hydraulic mine operations.

Th siezing of timber and stone on public lands with which to build these dams.

The levying of a 3 per centum tax upon the gross output of hydraulic mining operations to provide funds to build said dams.

While the commission cannot be too severely criticized for its laxity in the matter the hydraulic miner himself is deserving of more criticism for not raising a ruckus and compelling the commission to function. In fact, the hydraulic miner is the prize jellyfish of the world. Few instances in history will record another case of a people supinely submitting to such an outrageous robbery as was visited upon the hydraulic miner.

During the legislature session of 1926-27 members of this commission so far forgot themselves as to give interviews to the newspapers saying it was not the time to appropriate state funds to purchase dam sites upon which to bulid dams to restrain hydraulic mining debris. If the California Debris Commission in the thirty odd years of its existence had functioned as provided by law and seized the damsites that were then available the hydraulic miner would not have had to ask for state fudns with which to purchase them.

Furthermore, the function of this commission is to carry out the laws under which it operates and not influence legislation that will cripple its functions.

Another member of this commission stood time after time before the mineral rsources section of the Commonwealth Club and questioned the **subsidizing** of the hydraulic mining industry. If he wishes to raise that question as a private citizen, that's his right. 'Tis not often an army officer errs in the question of ethics and there is no excuse in these cases. They are a wanton exhibition of the misuse of power.

The acts of the spies sent out by some of the valley organizations were a stench that smelled on high. Their only weapon was the threat of fine or imprisonment ofIllicit hydraulic miners and the serving of injunction on those operating legally with permits from the California Debris Commission.

The blackmailing antics of this crew became so noisome that Major face of this subsequent annual re Harts of the California Debris Commission in a most scathing expose laid the whole matter bare. In the ports of the California Debris Commission time after time commended the wonderful co-operation one of these organizations were giving the commission. The agents of this particular organization were the rottenest of all the crew of blackmailers that laid tribute on hydraulic miners.

The hydraulic miner is mindful o the good the California Debris Commission has wrought in his behalf and is mindful also of its neglect. and with all its faults, would rather have it minister his affairs than any state agency. He is alos looking forward with glee to a mining engineer president who is apt to take a lot of wear and strain from grovernmental swivel chairs.

(To Be Continued)

Sheriff George R. Carter was an official visitor in Truckee during the week.

Andy Carey returned from Mariposa county early last week. He has been running a mill for a mining company for several months.

W. L. Mobley visited relatives in Yreka recently. This last week he took up his duties in the newly remodeledAlpha Hardware Store.

E. C. Latchem has recently equipped a large hydraulic plant on his property on Grouse creek.

Homer Gould, merchant of Downieville, was a visitor here Thursday

In the Oro Fino district several gravel properties have been equipped during the winter and are ready to operate or have started already. —Siskiyou Times.

The Jim Patterson property recently changed hands and the new owners have several men employed at present.

M. W. Barnum of the local forest service office was an official visitor in Sierraville.

James P. Coughlan of North Columbia was a visitor here Wednesday.

Mr. and Mrs. James Phelan and her mother, Mrs. Flynn of Tyler visited in Nevada City Saturday.

Fred J. Joubert, proprietor and operator of the large hydraulic mining property above Camptonville has been down on business several days the past week. He reports the water as being still short for operations.

Mrs. T. A. Lane is visiting her mother and sister, Mrs. Geo. Mainhart, and Mrs. Sidney Talbot.

Mr. and Mrs. John H. Roberts of San Francisco attended the funeral of his mother, the late Mrs. Eliza Robrts.

Mrs. R. S. Fitzsimmons is visiting with her sister, Mrs. James Snell of Hollister.

Henry W. Paine of Lake City was a recent visitor in Nevada City.

THE THRIFTY MAN LOOKS BEYOND THE IMMEDIATE PRESENT

The men who have made a success in life, those who have been able to spend their later years in comfort and happiness, were the men who in their younger years prepared for the future. They looked ahead and always knew that some day they would need to depend on the desults of their earlier efforts.

Aside from the joy of accumulating money; and those who have accumulated savings do find it a real joy to add to their savings, there is the advantage of being in a position to take advantage of opportunities. To know that you could go into business, to know that you could buy or build a home, to know hat if sickness comes you would not be alarmed as to where the mony was coming from to see you through—is worth any little sacrifices you may make today.

What the future holds for us, none of us know. If opportunity knocks only once at our door, let us meet it wih a smile and be prepared to go where it beckons. A svaings account at this bank will put you in a favored position.

THE NUGGET INDOOR SPORT COLUMN

RACE TIGHTENS UP IN BOWLING TOURNAMENT

By taking three points from the Richards outfit Tuesday night, the Nickless pin spillers advanced to within two points of top place in the Elks bowling tournament the past week. With the Celio league leaders meeting the Kopp and Nickless teams the coming two weeks it looks as if the Celios were going to have to extend themselves to keep from dropping in their standing. The Goynes and the Schoemers who are down at the bottom of the ladder seem to be the only ones to cope with the league leaders however.

The individual averages seem to be slipping badly out of the 150 class the past week and some of the promising bowlers have seen their hard earned averages taking a tumble. Tamblyn continues to shoot sensational game and has pulled his average up to 162 and is in second place be a margin of three pins over Pierce who has gotten back into the game again after being incapacitated. Tamblyn pulled out a double, triple and quadruple in the strike column in his last encounter with the maples. Biglow with 547 pins has high individual score for the week, getting a double century in his final game. Bigelow is in fourth place with 158. There is now but seven having an average of 150 or better. Seven are in the 140 division and seven in the 130.

Trevithick proved the surprise shooter of the week when after getting some coaching on how to knock'em cold, proceeded to roll up five strikes in a row to tie the tournament season record in that regard. His spurt was not long enough lived to raise his average much.

The talk of challenging Grass Valley to a tournament keeps cropping up but the bowling committee has not formally taken notice of the movement. It is to be hoped that a tournament will be arranged as it will tend to create a great deal of interest in the pastime.

With but two weeks more to go to close the prsent season speculation is rife as to how the teams will finish. The Celios by reason of a two point lead are of course in a favored position to capture the ganfalon, but the Nickless and Kopp outfits both have a chance to finish in first money. The Richards, Goynes and Scheemers are practically outside chances to finish in the money. The Goynes have been handicapped by having to bowl shorthanded in several important series and they seem to have trouble in getting into the point winning column. Two series weer lost by close margins which a full team and better shooting would have changed.

The attendance generally by the team members has been a great improvement over the previous tournament. Eight have a perfect attendance record so far, Tamblyn, Curnow, Percy Carr, Nickless, Hogan, Leiter, Penrose and Dave Richards. Eight have missed only one serie and four only two seris.

Doubles—Nickless Curnow, Fortier, Penrose, Fouyer, Kopp 2, Pierce 2, Hegarty, Goyne B. Carr, Tamblyn, Lobdell, Celio, Willoughby 3, Breese, Scheemer 2, Mobley Hogan.

Triple— T. Richards, Curnow, Pierce, Goyne 2, Tamblyn, Bigelow.

Quadruples— Tamblyn, Bigelow.

Quintuple—Trevithick.

Mrs. Anna Bruce of Marysville and daughter, Mrs. Frances Rowe, of San Francisco attended the funeral of the late John Lopez.

Filming of views around mining properties in this section was undertaken by the Fox people the past week. The pictures are being given the sound effect also so that the operations around a modern gold mine will be true to life. Charles R. Fraser of the Hotel Bret Harte and J. Earl Taylor were resonsible for the pictures being taken.

Grass Valley is now running one hour parking in the business district.

Nevada City to Sacramento and return, sold every day, limit 14 days, $4.50; from Grass Valley, $4.00.

SACRAMENTO IS CENTER OF A LARGE TRADE TERRITORY

By GEORGE B. ACKERMAN
Mining Editor, The Union

Sacramento, capital city of the state, in the "heart of California," is rapidly becoming the headquarters of mining men of California and Nevada, and the commercial areas.

Located on the rim of the mining districts of the Sierra Nevada counties and Coast range belt, the early day mining traditions and sentiment that provided the solid foundation for what California stands upon today, continue here now as in the days of Marshall, Sutter, Huntington, D. O. Mills and Mark Twain. Though dormant to some extent, yet they abound, and like Rip Van Winkle rousing from his slumber in the arms of Morpheus, are reawakened, and being brought forcibly to a sense of realization by the commercial interests of Sacramento.

In the halcyon days of the Comstock from '69 to '76, Sacramento was the trading point for the mining interests of Virginia City and the Mother Lode companies. Ox teams caravaned over the Sierra to Mount Davidson laden with powder fuse, picks, shovels, steel, tobacco, general merchandise and foodstuffs for Reno, Carson City, Gold Hill and Virginia City.

Sacramento continued to enjoy that prolific trade with the miner for decades. With the discovery of Tonopah and Goldfield, mining machinery houses and wholesale grocery concerns sent supplies in carload lots by rail over the Southern Pacific and Tonopah and Goldfield railroad lines to merchants and mining companies in the desert regions of the sagebrush state.

Mining, however, suffered a severe setback with the advent of the World War. Man power was taken from the mines, resulting in shutdowns of good properties when available workers flocked to the shipyards to enjoy the new wage prosperity superinduced by the European conflict.

Gold was demonetized, through no international agreement but through conditions brought about by the war, in that labor, wages and commodities advanced to such a high point with the price of the yellow metal remaining stationary, the purchasing power of a gold dollar was reduced nearly one-third of its former value in the commercial world.

At this time trade in Sacramento from mining sources slumped. For several years it has been below normal, but with new awakening in mining through development of properties in old and new camps of the entire mining region from the Rockies to the Pacific coast, and British Columbia southward to Chile, South America, and the releasing of hoarded capital into mining fields, Sacramento houses are now feeling the pulsations from a rejuvenated industry more strongly than some years past.

California and Nevada are bubbling over with mining enthusiasm. Mining districts of the west are looked at longingly by eastern men now fighting with their backs against the wall in an effort to prevent the chainstore octopus from crushing them. Mining affords today the greatest opportunity in the industrial world. Conditions are shaping for many newcomers in the ranks of profitable producers.

Prospects are fast developing into real mines, and holders of good prospect stocks are in line for the sensational profits that have made the shares of mining companies the most popular of all securities. The future was never brighter for the mining industry.

We are entering a metal age, and the mines must furnish the metals

VIRGINIA MINE BEING OPERATED COULTERVILLE

With new machinery being ordered and installed at the mill and the Virginia mine near Coulterville, new additions being made to equpment and a new electric hoist going in on the North winze from the 900 foot level, the Nevada Hills Mining Company is starting on a new era of production and development, according to Frank T. Andrews, president and general manager, who with his associates has taken over the control of the company. The directors have adopted a definite policy to be carried out under the direction of Frederick B. Hyder, consulting mining and metallurgical engineer and superintendent George B. Spitzer.

At the bottom of the north winze, which is down 150 feet from the 900 level, another winze from a drift is going down on ore that has a width of 40 inches, a good part of which is averaging better than $40 a ton. This shows for 60 feet along the drift. A continuance of the north winze is this ore it is believed will be self supporting. The contnuation of this ore to the surface will give 1,600 feet of backs.

Three hundred feet from the shaft on the 900 level, a raise is going up in commercial ore. From this level up engineers are of the opinion that new ore bodies will be developed which will duplicate the production of the mine in the past.

The shaft is to be unwatered and opened up to the 1,000 foot level where it is expected that the souht ore shoot, which was lost on the 700 level, will again be picked up.

The old levels are being cleaned out and made ready for mining. New wiring for electricity is going in the shaft. The mill is being equipped to make better savings.

President Andrews announces that the company has been adequately financed for operations.

Mrs. Nellie Veale has had as visitors, her duaghter, Mrs. Carl Ivey and husband of Chico.

NEIGHBORHOOD NEWS

Mrs. Mamie Parson, who has been confined to the hospital has recovered sufficiently to be able to return to her home in this city.

Mr. and Mrs. Theodore Larson visited in Los Angeles for a short time.

Mr. and Mrs. E. J. N. Ott left Friday to attend the funeral of the late Wm. H. Dunlap, which took place in Oakland.

H. O. Kohler of Washington was a Nvada City visitor Thursday.

Mother!

Child's Best Laxative is "California Fig Syrup"

Tongue Shows if Bilious, Constipated

Hurry Mother! Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can net harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

After all, what is the most important thing in baking?

Is it measuring and mixing ingredients? Is it selecting *certain* ingredients? All Home Economists know that after all, the most important thing is the correct oven temperature.

For almost anyone using care can measure and mix good ingredients accurately and follow a tested recipe. But in the baking—that's where all your best efforts meet the real test.

Today, leading Home Economists are turning to a device that keeps the oven at any temperature. It is called the Oven Heat Control and is a part of the new Gas Range.

See these new Gas Ranges at your dealer's. Or phone or call at our office.

LE AL NOTICE

ORDINANCE NO. 207

AN ORDINANCE PROVIDING FOR THE REGULATION AND LICENCING OF ITINERANT VENDORS AND PEDDLERS OF GOODS, WARES AND MERCHANDISE IN THE CITY OF NEVADA.

The Council of the City of Nevada does hereby ordain as follows:

Section 1.

The term "person," whenever used in this ordinance, shall include natural person, firm, copartnership, corporation and association as well as any agent, servant or employee of such natural person, firm, copartnership, corporation or association.

Section 2

Every person except those who are specially permitted so to do, without a license, by any law of the United States of America or of the State of California, who does not maintain a fixed place of business in the city of Nevada, shall, before engaging in the business of vending or peddling goods, wares or merchandise within the coroprate limits of this city, procure therefor a license from the Marshal and Tax Collector of this city, and shall pay to said officer, in advance, a license fee for the same, which license fee is hereby fixed at Five ($5.00) dollars per month.

Section 3

It shall be unlawful for any person for whom a license is required under the provisions of section 2 of this ordinance, to engage in, or transact, the business of vending or peddling goods, wares or merchandise within the city of Nevada, without having first procured from the Marshal and Tax Collector a licensse therefor and paid in advance the license fee above named.

Section 4

Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not exceeding fifty dollars, or by imprisonment in the city prison not exceeding ten days, or by both such fine and imprisonment.

Section 5

The city clerk shall attest the passage of this ordinance and cause the same to be published in The Nevada City Nugget.

The foregoing ordinance was enacted by the council of the city of Nevada, at a regular meeting thereof, held this 27 day of February, 1929, and was passed by the following vote:

Aye—Trustees Seaman, Murchie, Armstrong, Bennetts, Holmes.
Nay—None.
Absent, None

A. M. HOLMES,
President of the Board of Trustees (City Council), and Mayor of the City of Nevada.

Attest: GEORGE H. CALANAN, City Clerk.

Dated February 27, 1929.
Date of Publication, March 11, 1929.

Mr. and Mrs. Frank Reardon of Berkeley passed through here early in the week enroute home after a visit at North San Juan with Mr. and Mrs. S. Solaro. Mrs. Solaro and son, Eugene, accompanied them home for a visit.

Mr. and Mrs. Howard Douglas, who have been visiting his old home here, left for San Francisco this week.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for *Bayer*. And don't take any but the box that says Bayer, with the word *genuine* printed in red:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

Hufft, deceased, to the Creditors of and all persons having claims against the said decedent to file them with the necessary vouchers within four (4) months after the first publication of this notice in the office of the Clerk of the Superior Court of the State of California, in and for the County of Nevada, and to exhibit them, with the necessary vouchers within four (4) months after the first publication of this notice to the said administrator at the law office of W. E. Wright, Union Building, Nevada City, California, the same being his place of business in all matters connected with the estate of said C. E. Hufft, Deceased.

Dated March 4th, 1929.

C. E. HUFFT,
Administrator of the Estate of C. E. Hufft, Deceased.

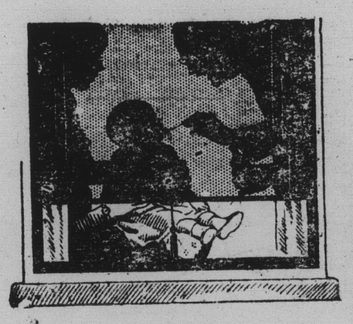

First Publication March 4th, 1929

Edward D. Dean brought his little daughter, Alice, home from a hospital in Woodland where she had ben operated upon for a mastoid.

Mr. and Mrs. John Hicks and her little son, Bobby Butler, visited relatives here Sunday.

Mrs. J. W. Howard and daughter, Elizabeth, of Sacramento were visitors here Sunday.

Dr. A. A. Arbogast and Emerson C. Arbogast of Oakland, spent the week end here visiting relatives.

In 5 MILLION HOMES TONIGHT

A host of babies will enjoy sound sleep tonight. And their parents will have unbroken rest. Castoria is the cause of this contentment in a multitude of homes.

Good old Castoria! Children cry for it. Mothers swear by it. Not a household where there is an infant should ever be without it. A few drops of Castoria quiet Baby in a perfectly innocent manner. It is natural slumber that follows. Castoria is a purely vegetable product. No opiates. No narcotics. Of any kind.

Now you know why trained nurses give Castoria as often as an infant is ailing, or even restless. And why doctors tell mothers it is the first and only home remedy when Baby has constipation, colic, diarrhea, or other upset. It is made for babies, and safe to give babies, and other things are not.

Fletcher's Castoria is "old-fashioned" if you count its fifty years, but it's an old-fashioned mother, nowadays, who worries along without it. Twenty-five million bottles bought last year! Think of the number of mothers who rely on Castoria! All these mothers can't be wrong! To keep a bottle in the house is a precaution you owe your little one.

Children Cry for Fletcher's CASTORIA

USE OF CENTRIFUGE IN MILL PRACTICE IS TOLD

That a properly designed centrifuge can concentrate and recover mineral particles which are too small to be saved by the usual gravity concentrators is indicated as the result of experimental work performed by the Department of Commerce. The results of the tests, which were conducted at the Rare and Precious Metals Experiment Station of the United States Bureau of Mines, Reno, Nevada, in cooperation with the University of Nevada, are given in a paper on centrifrugal concentration which will shortly be issued by the Bureau.

This paper will consist of a review of previous efforts to develop certifugal concentrators, an exposition of the theoretical aspects of the subjects, and a detailed description of the construction and operation of several new types of centrifugal concentrators. Experimental results include those obtained with small laboratory models and also with a machine of semi-commercial size operating under both laboratory and plant conditions.

The centrifuge makes available for concentration a force several hundred times as powerful as gravity. If a high centrifugal force is substituted for gravity in any type of concentrator, the velocity at which settling, and therefore concentration, takes place is greatly increased. The increased force not only speeds up the settling rate of all particles suspended in the concentrating medium, but for the fine sizes the increase is greater for particles of high, than for those of low, specific gravity. This change in the relative settling rates of small particles of different densities is an important aid to concentration.

In crushing ores as a preliminary valuable minerals is inevitably reduced to very small particles, having such a low settling rate in water that concentration in gravity machines, such as jigs, tables and vanners is difficult and often impracticable. This material can be successfully handled in a centrifugal concentrator.

LEGAL NOTICE

SUMMONS
No. 5713

In the Superior Court of the State of California, in and for the County of Nevada.

ECHO M. GOODWIN and LUL GOODWIN, his wife, Plaintiffs,
—vs—
JOHN W. O'NEILL; A. A. CHARONNAT; I. C. LINDLEY, S. T. ALLEN; NEVADA IRRIGATION DISTRICT, a corporation, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada.

W. E. WRIGHT, Attorney for Plaintiff, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO: JOHN W. O'NEILL, A. A. CHARONNAT, I. C. LINDLEY, S. T. ALLEN, NEVADA IRRIGATION DISTRICT, a corporation; and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defedants.

You and each of you are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within Ten (10) days after the service upon you of this summons, if served within this County, or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said Plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the Complaint.

The said action is brought by the above named Plaintiffs against the above named defendants, and each of them, to quiet Plaintiffs' title to the land and real property described in the Complaint on file in said action and hereinafter particularly described, and to determine the adverse claims of the above named defendants, and each of them, and of all unknown persons to, and clouds upon the title to the said real property and the whole thereof pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, and that said real property is situate, lying and being in the County of Nevada, State of California, and is particularly described as follows, to-wit:

All those certain lots, pieces or parcels of land situate, lying and being in the County of Nevada, State of California, and bounded and particularly described as follows, to-wit:

The North West quarter (NW ¼, the West half (W½) of the West half (W½) of North East quarter (NE¼); the North Half (N½) of South East Quarter (SE ¼) and the South West Quarter (SW¼) of South East quarter (SE¼) of Section Eleven (11), Township sixteen (16) North, Range 9 East, Mt. D. B. & M.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown as follows:

That all adverse claims to, and all clouds upon the title of plaintiffs to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property described in the Complaint of Plaintiffs on file herein and that plaintiffs are in possession of the property and entitled to the possession of the said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to or on the said real property or any part thereof, and that said defendants, and each and every one of them, known and unknown be forever debarred, enjoined and restrained from making or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of said plaintiffs in and to said real property and the whole thereof be forever quiete and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Nevada, this 14th day of January, A. D., 1929.

GEORGE COUGHLAN,
[SEAL] Clerk of said Superior Court.

First Publication—January 28, 1929.

Dates of Publication—Jan. 28; February 4, 11, 18, 25; March 4, 11, 18, 25; April 1, 8, 1929.

Fred Dickerman was arrested in Grass Valley charged with swearing to a false statement in securing a hunting license. He was fined $ 5 by Judge Mulroy. Laurence A. Gardner of Yuba City who was arrested by Game Warden Hiscox forkilling a grey squirrel, was sentenced to spend 30 days in the county jail by Judge Mulroy, who also suspended the sentence.

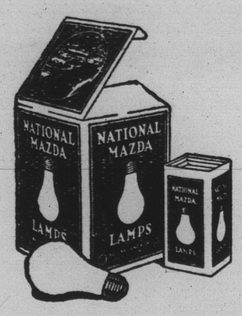

Fred C. Beedle, business man of Reno, Nev., was a visitor Saturday.

John Webster, genial mail carrier, on Route No. 1 from the Nevada City post office, was given a surprise birthday party March 7th. A pretty cake with decoration was taken to his home by Postmaster Phil G. Scadden and assistants, and a happy time was enjoyed by all present.

J. J. JACKSON

Phone Number One We Deliver

FRENCH CORRAL ITEMS

FRENCH CORRAL, Mar. 9, (Special to The Nugget)— Well here we are one week through the month of March 8, so far the "lamb" seems to have precedence! Everthing is taking on its spring beauty. Almond, apricot and peach trees are in bloom. The beautiful red of the Japanese quince ,along with showy jonquils, daffodils, narcissus and hyacinths and violets galore beatify the gardens, and the grass, blessed grass! It is making pastures green. In the country grass means so much yes, everything, for as many are dependent on it for feed for their stock. Many predict a dry season, but we can still hope for the rains that we need! Under our new administration the farmers can hope for all good things.

With the wonderful radio service of today many had the pleasure of listening to the inauguration ceremonies of President Hoover. In fact, one could almost imagine being an onlooker. Far away places are brought very near to us nowadays with this wonderful service.

Miss Millie Clerkin returned to her home Friday after a pleasant visit with the family of Chas. Buhl of Brown's Valley.

H. Browning and N. B. Bishop and Joe Swazey made a trip to Nevada City and Grass Valley Friday.

W. E. Moulton went to North Bloomfield to bring his daughter, Louise, to spend the week's end at home. Miss Louise returned to North Bloomfield Sunday afternoon.

Mrs. E. Sutherland, Miss Barbara McMinn and Miss Louise Moulton were Saturday visitors in Nevada City.

H. Flynn of Colgate called on friends in French Corral Friday.

A. Browning is doing road work between the Tackitt and Moynier places. The "lone Oak" that has stood a sentinel in the turn for more than a hundred years perhaps, has been blasted out in order to widen the road at this juncture. Those old landmarks become endeared and we regret to see them disappear, but we must make room for progress.

The regular meeting of the S. J. R. W. A. was held Sunday with a good attendance .Much important business was transacted. It was planned that the association will give a dance at San Juan the night of March 16th. We hope good weather will favor us for this occasion.

Mr. and Mrs. F. S. Wood and son, Carl, of Sweetland were Sunday visitors at French Corral. Little Carl has quite recovered from his recent illness.

Judge R. E. Tuttle with his wife and children visited French Corral Sunday.

W. P. Clerkin and Joe Swazey went to Pike City Monday, where they will remain for awhile to do some work on Mr. Clerkin's place.

Walter McCullough of San Juan made a trip to the Clerkin place Monday. He was accompanied by Miss Clerkin, who spent the day at his home.

Mr. and Mrs. E. Bundy and son, Dickey, and Mrs. L. R. Moore, of Sacramento were guests of Mr. and Mrs. E. DePrati Tuesday. Accompanied by Mrs. De Prati the party made a trip to Camptonville of which place they had often heard Mrs. De Prati speak in praise as it had been her home for many years. Too bad their visit was not postponed for a few weeks when the winter look would be displaced by spring. Mrs. De Prati returned to French Corral Thursday after a visit with fiends at Camptonville.

Arbor Day was observed at the French Corral school by the planting of tree and an appropriate program.

Rainfall for February was 5.55 inches and 4 inches of snow fell also during the month.

S. C. Bivens of North Bloomfield was a business visitor in Nevada City Friday.

HYDRAULIC ELEVATOR IS INSTALLED AT BAKERY

A hydraulic elevator is being installed at the Kopp Bakery to facilitate the handling of goods between the bakery section and the retail department of the store. The concrete work was handled by Tom Coan and the Miners Foundry has supplied the parts for the elevator.

The bakery has also added a new type of machine for wrapping the bread, at considerable expense.

MRS. ELIZABETH KELLY PASSES AT HOGAN HOME

Last Tuesday evening the demise of Mrs. Elizabeth Kelly occured at the home of her daughter, Mrs. Thomas F. Hogan, following an extended illness. She had for more than a half century been a resident of this county. A requiem mass for for the repose of her coul was celebrated in St. Canices Catholic church on Thursday by the Rev. Fr. P. O'Reilly.

Deceased was born in Rhode Island, October 12, 1847 and came to Grass Valley in 1878 where she made her home until ten years ago, coming to Nevada City to make her home with her daughter. The surviving children are Mrs. Hogan and a son, Louis Kelly. Five grandsons, Francis, Thomas and Gerald, and two granddaughters, the Misses Catherine and Ruth Hogan survive.

Mrs. Kelly was a woman of admirable traits and those privileged to know her will miss her kindly presence.

Rev. Father Lawson of Grass Valley delivered the eulogy at the funeral of Mrs. E. Kelly Friday morning.

Mrs. Mamie Parsons is in San Francisco visiting relatives.
